Summary

AI/ML engineer specializing in NLP and generative AI applications.

3+ years experience

Skills

Python, Machine Learning, Deep Learning, NLP, TensorFlow, PyTorch, Hugging Face, LangChain, Pandas, NumPy, SQL

Experience

AI Engineer, DeepLogic AI (2023-Present)

- Built RAG-based chatbot using LangChain and ChromaDB for enterprise document search
- Fine-tuned transformer models for sentiment classification with 92% accuracy
- 3+ years experience in applied machine learning and NLP

Projects

Resume Parser & Matcher - Python, spaCy, Sentence Transformers

AI Document Summarizer - Hugging Face Transformers, Streamlit

Education

MS Artificial Intelligence - NUST (2021-2023)

BS Computer Science - UET Lahore (2017-2021)

Certifications

Deep Learning Specialization - Coursera

TensorFlow Developer Certificate
